INTENT TO USE “NON-OFFICIAL” SERVICE CONTRACTOR FOR I & D LABOR

DEADLINE: FRIDAY—February 25, 2022

In the event an exhibitor plans on utilizing a service contractor other than CENTURY to handle the installation and dismantle of their exhibit, the exhibitor must complete and submit our “NON OFFICIAL SERVICE CONTRACTOR for I&D LABOR” form on our website (located on the Upcoming Events page under the NCoBC 2022 section) or [HERE](#)

If in fact, this form is not received in the Century office by the deadline date of **February 25, 2022**, the “Non-Official” Contractor will NOT be permitted to service your exhibit.

A current Certificate of Insurance showing General Liability Coverage and Workman’s Compensation valid in NEVADA naming CENTURY as the “additional named insured and certificate holder” must be submitted at the same time as the form or they will not be allowed on the show floor.

FIRE DEPARTMENT REGULATIONS

Dear Exhibitor,

We are pleased that you will be having your exhibit in our city, and we want to help you make it both safe and successful. Special attention must be given to many details, so we hope you will call the Fire Prevention Division for consultation.

To help you in planning your event, we offer some key information. Attention to these requirements will prevent problems. They apply to all public assemblies and exhibitions.

We will provide the required permit for assemblies of 100 or more people following review of a plan showing the capacity and location of aisles and exits which must be kept on display at the assembly.

Listed below are additional requirements to follow for safety:

- Install display or exhibit so as to not interfere with access to exits or visibility of exits, or of exit signs. Also, it is important not to block access to fire fighting equipment and/or emergency equipment.
- Use flame retardant materials for all displays, table covers, tablecloths, streamers, booths and decorations.
- We will assign an inspector to fire watch and first aid if deemed reasonable, with the individual compensated by the exhibit operator or promoter.
- Prior approval should be obtained before using an open flame lighting device.
- The required way to display vehicles inside a building is to disconnect the positive lead of the battery, drain the fuel tank to one-quarter tank or less, and tape or lock fuel caps; LP tanks should be removed from all vehicles. WRITTEN NOTIFICATION OF PLANS TO BRING A VEHICLE ONTO THE SHOW FLOOR MUST BE MADE TO THE SHOW CONTRATOR AT LEAST FOUR(4) WEEKS PRIOR TO SHOW SET-UP SO THAT THE PROPER PERMITS CAN BE OBTAINED.
- When LP gas is used, five pound non-refillable containers are permitted temporarily inside buildings for demonstration purposes, if spaced not closer than twenty (20) feet from each other, but no spare tank storage is allowed inside. All LP tanks must be removed from the exhibit floor each night.

NOTE: Smoking is prohibited in the exhibit areas during move-in and move-out due to the accumulation of combustible materials
